Sheriff Greg Szudera

I am formally filing a written complaint against Deputy Jamey Ross. I want the complaint in his personal file due to his unprofessional behavior that was directed toward me on Jan 23, 2007 at approx 630pm at the Hill County Detention Center. I was at the Center to report suspected child molestation. The case involves my sister Sharon Schmockel's male companion Joe Bell. My sister Sharon had followed me to the Center and talked to another officer and convinced him that I was a threat to myself or others. Sharon has 13 years as an alcohol counselor and is back into her own addictions.

The reason I turned this in is because my niece Stacey Azure came to my home crying about her children. The children are victims of previous sexual abuse. They are the grandchildren of Sharon Schmockel. The abuse has been documented by FBI agent Grace Her Many Horses.

As I was leaving the Detention Center, Deputy Jamey Ross started by saying "Don't come back here again because you know who you'll be dealing with." I turned around pointing my right index finger at him and said "You." He said "You got that right. I own this jail" and hitting his chest with his fingers and swaying left to right. Officers took me to the Emergency Room at NMH and I was admitted at 746pm Jan 23<sup>rd</sup>. Deputies told me at approx 815pm Jan 23 that I had two options: stay at NMH or go to jail. I asked why I would be going to jail. The officer in charge- after a phone conversation with Deputy Ross - responded pending charges. I said I would have to be charged first and then incarcerated. I did not go with the officers because I was afraid of Deputy Ross and his unprofessional behavior - I thought I was not safe at the Detention center.

I was released from NMH at approx 947am Jan 25. The bill for the stay at NMH is currently \$ 3,323.89--- and I feel Deputy Ross is responsible for this bill and not me and not the Indian Health Service (IHS) and not Hill Co. This is his bill because I was denied due process of law. I will be pursuing this in civil court if Deputy Ross does not take responsibility for his inappropriate actions.

**NORTHERN MONTANA HOSPITAL  
EMERGENCY DEPARTMENT AFTERCARE INSTRUCTIONS**

Date: 1-23-07

These general instructions are intended to answer several commonly asked questions and to give you brief notes to remind you of instructions. They are not all-inclusive and are not a substitute for good follow-up as recommended. It is sometimes not possible to recognize and treat all problems associated with an illness or injury in a single emergency room visit. Thus, follow-up care is important.

**GENERAL INSTRUCTIONS:** Call 265-2211 or return to the Emergency Department if questions arise.

\_\_\_\_ For further evaluation, follow-up with your personal physician or the following type of physician:

\_\_\_\_ Medications dispensed: \_\_\_\_\_

\_\_\_\_ Prescriptions: \_\_\_\_\_

☒ Other instructions: \_\_\_\_\_

1) Carry out your plan to spend the night ~~at a friends~~  
2) If you are worried about any child, you should use this number:  
1-866-820-54-37

Micromedex Care Notes copied for patient: \_\_\_\_\_

Estimated time off work \_\_\_\_\_ days. Estimated time of work restriction \_\_\_\_\_ days.

Follow-up is recommended for persistent disabilities.

☐ **TETANUS (LOCKJAW) PREVENTION:** Tetanus antitoxin (human) was given since there had been no previous immunization or an inadequate immunization in the past.

Injection of:

- ☐ Diphtheria tetanus  
☐ Tetanus toxoid only

☐ X-rays: The x-ray specialist will review these films. If there are additional findings, you will be notified. Sometimes abnormalities may not show up for several days -- if symptoms persist or worsen, more x-rays may have to be taken. There will be an additional charge from Radiology for reading x-rays.

I understand and agree to the recommended follow-up care.

Signature (patient/personal representative):
